

Jigyasa Gohil

Frontend Developer • Angular • TypeScript • 3+ Years Experience

+91 8302760220 | Udaipur, Rajasthan | jigyasagohil101@gmail.com | linkedin.com/in/jigyasa-gohil | github.com/jigyasa125 | jigyasagohil.vercel.app

PROFESSIONAL SUMMARY

Results-driven **Frontend Developer** with **3+ years** of expertise in architecting high-performance web applications using **Angular**, **TypeScript**, and **JavaScript**. Delivered measurable impact: reduced **UI defects by 50%**, accelerated **page load times by 45%**, and enhanced system reliability to **99.9% uptime**. Specialized in enterprise-grade solutions, financial platforms, and scalable architectures with strong emphasis on code quality and optimal user experience.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS

Frameworks & Libraries: Angular (v10-v18), RxJS, NgRx, Angular Material, Bootstrap, Reactive Forms

Core Concepts: Component Architecture, Lazy Loading, Route Guards, Interceptors, State Management, RESTful API Integration, JWT Authentication, Change Detection Optimization

UI/UX & Styling: Responsive Design, SCSS Architecture, Material Design, CSS Animations

Tools & Workflow: Git, GitHub, Postman, Chrome DevTools, VS Code

PROFESSIONAL EXPERIENCE

Frontend Developer

July 2025 - Present

Sanglob Business Services | Pune

- Spearheading development of **MACK (Managing Content & Knowledge)** platform using **Angular 16** and **TypeScript**, featuring 4 core modules: Invoice, Quotation, Purchase Order, and Requisition Management
- Engineered automated workflows reducing manual processing time by **40%** and integrated **155+ RESTful APIs** ensuring **99.9% uptime**
- Built responsive UI with **Material Design**, achieving **95% user satisfaction** and seamless cross-device experience

Frontend Developer

Feb 2023 - April 2025

CrocoCode Pvt Ltd | Udaipur

- Developed enterprise applications including **VigorBooks**, **CodeSpeedo**, and **LotApp** serving **10,000+ active users**
- Reduced **UI bugs by 50%** and improved performance by **45%** through code optimization and testing strategies
- Conducted code reviews and participated in **Agile sprints & daily stand-ups**, collaborating with cross-functional teams

PROJECTS

MACK - Managing Content & Knowledge Angular • TypeScript • NgRx • REST APIs 2025

➤ procdemo.solverminds.net

- Enterprise management platform built with **Angular 16** and **TypeScript** featuring 4 core modules: Invoice Management, Quotation Processing, Purchase Order Tracking, and Requisition Workflows with **Material Design UI** and real-time data synchronization
- Automated document workflows with **155+ RESTful API integrations**, role-based access control, audit logging, reducing manual processing time by **40%**

VIGORBOOKS Angular • TypeScript • REST APIs • Bootstrap

2025

➤ app.vigorbooks.com/#/auth/login

- Built a full-featured **GST-compliant accounting platform** covering invoicing, expense tracking, and ledger management, reducing manual accounting effort by **35%**

- Developed **real-time financial dashboards** with chart-based P&L summaries and integrated one-click **PDF/Excel export** for reports and invoices

LOTAPP *Angular · TypeScript · Angular Material*

2024

➤ app.unlikeanything.nl/

- Built an **e-commerce product management platform** with real-time inventory sync across multiple sales channels and bulk product operations
- Developed rich **Angular Material UI** for product catalogs, order tracking, and customer dashboards with a consistent design language
- Implemented **automated low-stock alert system** with configurable thresholds, reducing stockout incidents for clients

MPRASS *Angular · TypeScript · Responsive Design*

2024

➤ mprass-73c98.web.app/auth/login

- Developed a **cloud-based inventory management system** with real-time stock updates, barcode support, and multi-location tracking
- Delivered a fully **responsive, mobile-first UI** ensuring consistent experience across desktop, tablet, and mobile devices

CodeSpeedo *Angular · TypeScript · JavaScript · CSS***2023**

➤ www.codespeedo.com/

- Built a **no-code app builder** for Ionic & Flutter with drag-and-drop canvas, pre-built component library, and customizable templates, boosting developer productivity by **50%**
- Engineered a **live preview engine** that rendered component changes in real time, providing instant visual feedback during the build process

EDUCATION

Bachelor of Computer Science & Engineering

2020 – 2023

Aravali Institute of Technical Studies, Udaipur

Diploma – Science Stream (Computer Science)

2017 – 2020

Vidhya Bhawan Polytechnic College

CERTIFICATIONS

Experience Certificate – Frontend Developer

Feb 2023 – June 2025

CrocoCode Pvt Ltd, Udaipur

Industrial Internship Training Certificate

May – June 2019

WebKeens Technologies, Udaipur
